

Family Medicine Residency
Transitional Year Residency
Medical Student Externship

WELCOME!

Clarion Hospital has a well-established medical education program with over 40 years of experience, training hundreds of medical students and resident physicians over these years. With a focus on rural, community medicine, we are committed to training well-rounded physicians in a supportive learning environment. Our students and residents enjoy the autonomy and hands-on training they receive at Clarion Hospital. We look forward to having you join our hospital team and family!

- Scan code for benefits packages

Medical Student Externship

- Meal Stipend and Housing Available

BHS Clarion Hospital Graduate Medical Education is based out of Clarion Hospital which was established in 1954 by five physicians who had a vision of providing short term healthcare for the citizens of Clarion County.

Located off of I-80 at exit 62 in the forest covered mountains of the Pennsylvania Great Outdoors, Clarion Hospital is a modern, 67-bed facility dedicated to providing quality care to our community with services ranging from inpatient, outpatient and emergency services. Residents and students will see a wide array of illnesses, treatments, and stages in life. We have been a trusted provider in health care and continue to invest in the wellness of the Clarion region with the opening of our \$13 million BHS Health and Wellness Center. This state-of-the-art facility offers the community access to advanced care close to home with Family Healthcare of Clarion, our residency continuity clinic centrally located. With a focus on lifestyle medicine and disease prevention, we train our students and residents in new and innovative ways.

ClarionHospital.org

We are looking for dedicated, hard-working medical students and residents who have been called to medicine with a strong desire to learn and to make an impact on the people and communities in which they serve.

About Clarion County

- Low cost of living & housing
- Safe, family-friendly neighborhoods
- Easy access to nature with nearby lakes and rivers for boating, trails for hiking and biking, golfing, and much more!
- Conveniently located between Erie, Pittsburgh, and Cleveland
